**New Hope Center**

My stay at the shelter was hard but rewarding. I originally came from Las Vegas but there was no jobs there.

I came to Colorado Springs to live with my brother and his wife. Well things didn't go well there and found myself on the streets.

I found the shelter in March of 2009. I will admit it is not the best hotel in town, but they do feed you, they give you showers and beds. Also they will help you save money so you can get a place and stay on your feet.

My case manager was Jan Harris and she worked with me as much as she could.

At the shelter I was able to find a job and become self sufficient again. I am now working at a car dealership and have moved on into my own place. Not everybody that comes to the shelter can make it like me, but if you put your hard work into it, you might make it. Just never give up hope.

I just want to thank the staff for helping me out and special thanks to the head director Gene Morris. He and Jan had seen the hard work that I put in and glad that I did make it.
